

QUALITY & ENVIRONMENTAL POLICY

AMSTEEL's main intention is to be recognized for its quality in Port & Steel Services. **AMSTEEL** aims to minimize the environmental impacts of all Trading and Logistic activities at its facilities. To achieve them, Top Management of **AMSTEEL** have commitment to establish, implement and maintain Quality & Environmental Policy through;

- Considering the purpose and the context of **AMSTEEL** organization and the environmental impacts of **AMSTEEL** activities to support **AMSTEEL**'s strategic direction based on its mission, vision and values,
- Providing the framework for setting and achieving Quality & Environmental objectives,
- Meeting customer and applicable statutory and regulatory requirements to increase customer satisfaction and prevent pollution to protect the environment,
- Continual improvement of its Quality & Environmental Management Systems to fulfill its compliance obligations and enhance quality and environmental performance, by following the requirements of ISO 9001:2015 and ISO 14001:2015.

AMSTEEL supports and encourages actions and voluntary commitments to create awareness regarding Quality & Environmental Management System requirements.

Management Representative is responsible for communicating the Quality & Environmental Policy to all persons working for or on behalf of **AMSTEEL** and making it available to the public.
