

ENERGY POLICY

AMSTEEL acknowledges the need to move toward a low-carbon economy and is committed to playing its part in developing practical and feasible solutions, in its field. This will be achieved through;

- Acting on energy conservation and efficiency, both in its operations and the supply chain,
- Setting targets for reducing carbon footprint of operations,
- Promoting energy efficiency initiatives and moves towards renewable sources of electricity,
- Engaging all employees in reducing their energy and carbon footprint,

In this respect, **AMSTEEL** promotes sectoral and local actions to provide faster and more effective large-scale responses to climate change.
